

SnowEx Winter 1 - Other: NRL P-3 02/22/17 Science Report

Aircraft:

Other: NRL P-3

Date:

Wednesday, February 22, 2017

Mission:

SnowEx Winter 1

Mission Location:

Petersen AFB, Colorado Springs, CO

Mission Summary:

The original plan for this flight was to do another science flight over Grand Mesa as well as Senator Beck. The weather at the Mesa turned out to be extremely uncooperative. It was too turbulent for science data collection, cross winds forced a 15 deg crab angle, and there was significant cloud cover. After unsuccessfully doing a line on the Mesa, the aircraft moved on to Senator Beck in hopes of better weather and to give the Mesa time to clear up. 1 of the 4 tracks were completed at Senator Beck before SnowSAR had issues again and no data could be collected. Decided to fly back to the Mesa while hunting for a good spot for a CAR circle, and managed to only find one due to significant cloud cover. Various altitudes were flown. Pilots were Cmdr. Neall, Lt Cmdr Rossi, and Lt Miller. Duration: 5.0 hrs
